

We have some exciting news! We have transitioned to BSA MyChart, our new patient portal that connects you to your health care.

BSA MyChart still gives you 'round the clock, seven days a week access with a much more streamlined, simple view of your personal health information—all on your favorite device!

BSA MyChart connects you to:

- Your health record**
- Your health provider**
- Your prescription information**
- Your family's records, providers, pharmacy preferences**
- All of the above and more. Anytime, anywhere*.**

Anyone age 13 years or older may register (with a valid email account) and options are available for parents, legal guardians, and approved caregivers to manage additional records. You will need a code to register, even if you've used our patient portal in the past.

There are two ways to obtain this code:

1. **At your next appointment.** We'll generate an activation code that you may use to register online. The code remains active for 14 days.
2. **Online.** Visit mychart.bsahs.org and register or call **1.855.523.8770** for additional assistance.

Safe, secure and easy to use! BSA MyChart connects.
